SUMMARY

Aspiring Software Engineer and BSc (Hons) Software Engineering student with hands-on experience in web and mobile app development, real-time IoT integrations, and Android UI design. Skilled in JavaScript (React/Node), Java, C, C++, Python, Kotlin, MongoDB, MySQL, and Firebase RTDB. IoT enthusiast with ESP32 integration experience. Proficient in modern AI tools and prompt engineering. Seeking an internship to contribute to real-world projects and strengthen backend, AI, and IoT expertise.

EDUCATION

BSc (Hons) in Information Technology, specializing in Software Engineering (CGPA: 3.32) Nov 2023 - Present
Sri Lanka Institute of Information Technology - Northern Uni

G.C.E. Advanced Level – Physical Science Stream (Index No: 5236193) Jan 2019 - Feb 2023
St. Patrick's College, Jaffna.

PROJECTS

SmartAgro – AIoT Smart Agriculture Monitoring System - Web App (Year 2 Semester 2)

- MERN Stack, Firebase RTDB, ESP32 with IoT sensors (DHT11, Soil Moisture, MQ135, DS18B20, etc.)
- Integrated real-time sensor data visualization, smart alert and irrigation automation, AI-powered chatbot (DeepSeek API), and intelligent crop & fertilizer management system.
- Configured Twilio & SendGrid APIs for automated SMS/email alerts and dynamic report generation.

SmartAgro – AIoT Smart Agriculture Monitoring System - Android Mobile App (Year 2 Semester 2)

- Built with Kotlin & Firebase Realtime Database for live IoT data synchronization.
- Implemented mobile control for irrigation system and real-time sensor monitoring from ESP32 devices.

VitaTrack – Personal Health & Hydration Monitoring - Android Mobile App (Year 2 Semester 2)

- Developed using Kotlin (Android Studio) with SharedPreferences for local health data storage.
- Included daily habit and hydration tracking, reminders, and visual progress charts using Material 3 UI.

Travely – Online Transport Management System (Like Uber) - Web App (Year 2 Semester 1)

- Designed with JSP, Servlets, MySQL, and Google Maps API integration for real-time route tracking.
- Enabled driver-passenger matching, fare calculation, and live trip status updates.

MediMart – Online Pharmacy Portal - Web App (Year 1 Semester 2)

- Developed using PHP, MySQL, HTML, CSS, JS for full e-commerce pharmacy functionality.
- Implemented secure user login, medicine catalog, and online prescription upload system.

ADDITIONAL INFORMATION

Technical Skills

- **Languages & Frameworks:** Java, C, C++, JavaScript, Python, PHP, Kotlin, React.js, Next.js, Express.js
- **Databases:** Firebase RTDB, MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Docker, Trello, Android Studio
- **Styling & UI/Design:** Tailwind CSS, Bootstrap, Figma, Canva
- **AI & IoT:** AI Tools, LLMs, ESP32, Sensor Data Integration
- **Methodologies & Technologies:** Agile, CI/CD, Cloud Computing, AI, ML, Deep Learning

Soft Skills

- Communication & Presentation Skills
- Problem Solving & Critical Thinking
- Team Collaboration
- Time & Task Management
- Creativity & Innovation

Languages

- Tamil: Native Proficiency
- English: Professional Proficiency
- Sinhala: Elementary Proficiency

Interests

- IoT, AI, ML, Deep Learning, Cloud Computing, CI/CD, Emerging Technologies

Achievements

- Dean's List – 2024 (Academic Excellence)

Positions of Responsibility

- Batch Representative – SLIIT Northern Uni | Nov 2023 – Present
